- **Backend Development**: Node.js, MongoDB, SQL

- **Development Tools**: REST APIs, Git, npm

- **Soft Skills**: Collaboration, Problem Solving, Critical Thinking, Communication

---

Portfolio Projects

Portfolio Website

🌐 [View Project](#)

- Designed and developed a fully responsive portfolio website using HTML5, CSS, and SASS.

- Highlighted technical expertise through interactive projects built with vanilla JavaScript.

Cards App (React Project)

🌐 [View Project](#)

- Built a React application featuring REST API calls with CRUD functionality.

- Integrated user authentication, form validation, and management of two distinct user types.

- Connected a Node.js backend to a database, ensuring reliability and scalability.

Education

2023–2025: **HackerU - Full-Stack Development**

- Comprehensive training in front-end and back-end development through project-based learning.
- Focused on critical thinking and logical problem-solving to address coding challenges effectively.

Career Objective

To contribute to impactful web development projects as part of a forward-thinking organization in Israel. I aim to leverage my technical skills and collaborative mindset to drive success while growing into leadership roles to mentor and guide teams toward achieving business objectives.

Why Hire Me?

- **Technical Expertise**: Proven ability to design and build efficient, scalable web applications.
- **Team-Oriented**: Demonstrated success in collaborative environments to achieve exceptional results.
- **Quick Learner**: Adaptable and eager to embrace new technologies and challenges.
- **Leadership Potential**: Aspiring to mentor and lead teams toward innovation and success.

Languages

- Hebrew: Native
- English: Fluent

Additional Information

- Open to hybrid or on-site roles across Israel.
